CYBERSECURITY

WHAT'S YOUR CYBERSECURITY STRATEGY?

Steps to getting started with building a comprehensive cybersecurity plan:

- 1** Conduct cybersecurity assessments to identify in vulnerabilities
- 2** Find a vCISO or a trusted advisor with a vested interest in protecting your business and your clients
- 3** Provide regular, ongoing cybersecurity training for employees
- 4** Put cybersecurity policies in place to protect your organization
- 5** Deploy cybersecurity tools with multiple layers of high-caliber defense to protect against known and unknown threats
- 6** Prepare for an event, which should include cyber insurance
